Work Experience

Front-End Developer | Bitio Development

September 2025 - March 2026, Stockholm

- Worked on a transportation management system for a logistics enterprise operating 550+ drivers nationwide. Replaced a retiring legacy system within a **six-month deadline**, in close collaboration with **UX- and backend** teams.
- Built data tables, **CRUD** workflows, and form interfaces for the desktop admin dashboard using **React**, **Tanstack Router**, **Tanstack Query** and **Vanilla Extract** against an **ASP.NET** backend.
- Introduced an improved routing architecture for **Tanstack Router** and restructured nested tab navigation across the app.
- Developed vehicle setup logic and order action flow for the **Expo**-based mobile app for **iOS** and **Android**, used by drivers to receive and process orders.

Junior Front-End Consultant | This is Deploy

March 2025 - August 2025, Stockholm

- Built landing page for Toyota Logistics Design Competition 2026 on legacy **Ruby on Rails** backend and **Vue.js** frontend.
- Successfully adapted to unfamiliar tech stack under tight deadlines and served as primary **technical liaison** with design team and client.
- Maintained **Next.js** corporate website for Asia Nordic by embedding data visualization and fixing frontend bugs.

Front-End Developer Intern | Entire Nordic

September 2024 - March 2025, Uppsala

- Built bankruptcy tracking platform Konkurs.nu from scratch using **Next.js** and **Apollo/GraphQL**. Built custom headless **CMS** and implemented dynamic **SEO** optimizations.
- Designed admin dashboards for SaaS Arcesso.nu platform serving **700+** users, leveraging **Next.js** and **GraphQL** backend.
