## Work Experience

### Front-End Development Intern

Entire, Uppsala | 2024/10 - 2025/03

#### Key projects:

- **Konkurs.nu**

Developed a full-stack bankruptcy tracking site in Next.js, including advanced search powered by Apollo/GraphQL. Implemented a custom CMS for editorial content and optimized extensively for SEO (dynamic metadata, sitemaps, etc.)

- **International Weather Site**

Built a weather and marketing site in Next.js as an SEO tool for a Maldives resort campaign. Integrated and transformed OpenMeteo weather data, and implemented SEO enhancements.

- **Arcesso.nu Administration Pages**

Designed and implemented admin dashboards for Arcesso.nu, a SaaS platform for legal professionals managing bankruptcy cases. Delivered case and user management features using an existing GraphQL backend.
