Work Experience

Front-End Developer
Bitio Development, Stockholm | 2025/09 - 2026/03

Märsta Förenade Åkerier Transport Management System

- Worked on a transportation management system for Märsta Förenade Åkerier, a logistics company operating **550 drivers** across Sweden with an annual turnover of **1 billion SEK**, replacing a retiring legacy system within a **six-month deadline**, in close collaboration with **UX-** and **backend** teams.
- Built data tables, **CRUD** workflows, and form interfaces for the desktop admin dashboard managing vehicles, materials, order planning, and dispatch using **React, TanStack Router, TanStack Query**, and **Vanilla Extract** against an ASP.NET backend. Handled the conversion layer between backend data models and form-friendly **TypeScript** structures.
- Introduced an improved routing architecture for **TanStack Router** and restructured nested tab navigation across the app.

Märsta Förenade Åkerier Driver App

- Developed vehicle setup logic and order action flow for the **Expo**-based **mobile app** for **iOS** and **Android**, used by drivers to receive and process orders.

Junior Front-End Developer
This Is Deploy, Stockholm | 2025/04 - 2025/08

Toyota Logistics Design Competition 2026

- Built landing page for Toyota Logistics Design Competition 2026 using **Ruby on Rails** backend and **Vue.js** frontend.
- Successfully adapted to unfamiliar tech stack under tight deadlines.
- Served as primary **technical liaison** with design team and client.

Asia Nordic Website Maintenance

- Maintained **Next.js** corporate website by embedding data visualization and fixing frontend bugs.
- Coordinated integration of third-party data graph solution.

Fun Facts

In my spare time, you might find me reading, or watching films (I especially enjoy horror).

I also enjoy exercising, yoga and meditation, and I have an interest in learning about history!

Front-End Developer Intern
Entire, Uppsala │ 2024/10 - 2025/03

Konkurs.nu

- Developed bankruptcy tracking platform using **Next.js** and **Apollo/GraphQL**.
- Built custom headless **CMS** and implemented **dynamic SEO optimizations.**

Arcesso.nu Administration Pages

- Designed admin dashboards for SaaS platform serving 700+ users, leveraging **Next.js** and **GraphQL** backend.

International Weather Website

- Created a **Next.js** marketing site for Maldives resort with real-time **OpenMeteo API** integration.
- Enhanced **SEO** to boost organic traffic.

Personal Project

Lifeplan

- Developed Lifeplan, a fullstack planning app built with **Next.js, Prisma, and NeonDB.**
- Implemented secure authentication (**NextAuth**), calendar integration (**FullCalendar**), and a **tree-data structure** with dependencies, using an **algorithm** for auto-generating calendars from user goals.
